 UEC- RF -MICROWAVE Custom IMAs, RF Amplifiers & Converters for commercial, military, space flight & broad range of amplifier solutions for aerospace, manned & unmanned aerial vehicles, shipboard apps, radar, missile systems, airborne satellite (VSAT) Wireless Tech.	 RODELCO ELECTRONICS DC to 50 GHz Amplifiers, Control Components (Pin Diode switches & Attenuators) Sources, Converters, Receivers & Integrated Micro Assemblies
 CHELTON Antennas from 500 MHz to 40GHz, Wireless Local Loop, Flat Panel, Low Profile, Sector Antenna Omni's.	 APPLIED ENGINEERING RFI/EMI Shielded Enclosures, Non-Shielded Anechoic Chambers Turn-key Installations, Relocations, Modifications
 Q MICROWAVE RF Microwave Filters, Multiplexers, Switch filter banks	 KRYTAR Directional Couplers, Hybrids, Russell Power Dividers, Detectors, Terminations, 2.0-50Ghz
	 MBT RF components 100Hz components to/ including millimeter wave Silicon RF/Microwave semiconductor diodes - Diodes: abrupt tuning varactors, step recovery low & high power PIN, limiter, point contact mixer/detector, Schottky, custom & discontinued. Silicon MIS, MIC, Binary chip capacitors, Silicon Resistors, AlN thin film attenuator pads, Spiral Inductors. HI-REL testing. Approvals: ISO 9001:2008, MIL-STD-750, MIL
